Aspiring UX designer, skilled in Adobe XD and Sketch. Have completed several projects, independently and within team setting, including designing a class catalog website, an AR app, and an official school website.

Education

University of Pennsylvania

Bachelor of Science in Engineering, May 2021

Major: Computer Graphics; Minor: Fine Arts

GPA: 3.78/4.00

Experience

Web Designer, CG@Penn

— May 2019 - Present

- Revamped website for the UPenn Computer Graphics Department
- 6 CG professors and students reached out with positive feedback
- Interviewed professors to understand department needs
- Sketched wireframes and created mockups in Adobe XD
- Developed website using HTML, CSS, Javascript, and Github
- Built scalable solutions for both mobile and desktop display

UI Designer, Penn & Slavery Project

— May 2019 - Jan 2020

- Designed and implemented UI for a Unity AR app
- Led a team of 6 in starting product design discussions
- Catalyst in the organization of a focus group to discuss product design usability
- Determined user profile, designed app flow and wireframes
- Created low-fidelity and high-fidelity mockups in Sketch

Freelance UX Designer

— May 2019 - Present

- Served as product designer in a team of 3 creating a class catalog website
- Designed an app to facilitate mentorship at UPenn, after interviewing potential users

Projects

Penndoor

May 2020 - June 2020

Designed a website that aims to facilitate class selection decisions by allowing student comments and gathering info in one place. Surveyed. Created a user persona, wireframes, and prototypes.

Portfolio Site Redesign

March 2020 - Present

Designed and developed multiple versions of personal portfolio site. Experimented with different web development techniques.
